### About APSCO

The Association of Professional Staffing Companies (APSCO) has been representing professional recruiters since 1999. It was originally formed as ATSCo (The Association of Technology Staffing Companies) to provide a separate voice for recruitment firms in the IT sector. After a series of important lobbying successes, it became evident that other professional recruiters wanted a distinctive voice and specialist support and APSCO was formed in 2009.

---

Since then, the organisation has gone from strength to strength. It is now a trusted advisor to Government and has earned a strong reputation for providing high quality support services and events. APSCo has become a trusted badge of quality with an increasingly international profile. Its position as the only membership body dedicated to professional staffing, its strong service offering and international reach mean that APSCo is growing rapidly as professional recruitment firms seek out a distinctive brand that reflects their needs and is aligned to current staffing trends.
